***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

- The primary reasons for allowance for claims 1-7 is the inclusions of the limitations of a method of assessing the quality of recording characteristics of a hard copy recorder and a hard copy recorder comprising the steps of performing at least one density measurement on the hard copy of a test image by means of a densitometer part of the recorder, generating a digital quality report of said hard copy recorder, said quality report comprising at least the results of said density measurement, and storing said quality report. It is these limitations, either alone or combined as claimed, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
